विषय: Inclusion in NIT

Dear Sir,

An extensive examination for procurement of 08 Nos of 320HP dozers with 03 years guarantee spares & 03 years performance guarantee through global tender against replace (against survey off) was carried out by vigilance department.

On the body of the report of vigilance department, CMD/ECL recommended for system improvement and the proposal was sent to Director (Technical) Project & Planning for necessary action.

Director (Technical) Project & Planning constituted a committee for detail study for NIT & recommend the measures needed for system improvement.

The committee submitted its report which was placed in the FD's meeting held on 14.01.2017. FD's sent the file to Director (Technical) Project & Planning for necessary action.

The extract of the recommendation, mentioned below, for your information and necessary action at your end as deemed fit.

1. (a) All requirements in NIT should be in S.I. unit.
- (b) NIT should clearly mention that, bidders should quote all parameters only in S.I. unit and no others unit should be acceptable.
- (c) This may also be implemented not only for dozers but for all HEMMs to be procured.

Ankit B. Singh

(d) The clause (4.1) may be modified --The dozers shall be powered by a direct injection of 04 stroke turbo charged diesel engine of not less than _____ KW/Watt net power measured between 1700 and 2200 r/min at least at one rpm according to ISO 9249.

(e) If require the conversion factor will be mentioned in the NIT for the evaluation of documents for provenness criteria only.

2. The clause B.4 i.e. "standard" may be deleted from NIT of all HEMMs. However, NIT must incorporate all safety features and other requirement as per specific DGMS guidelines.

3. In the clause of provenness criteria "OR" made between clauses which creates contradictory situation hence the "OR" between the clauses may be removed.
